# UWA Turf Research Program

## 2013 'Open-Day'

### Managing Turfgrass on a Water Allocation

**How much water do you think these plots have received? Have they received the same amount of irrigation? Do wetting agents have a key role in irrigation efficiency? Come along and see for yourself!**

You are invited to an informal Open Day at the UWA Turf Research Facility to see how different water allocations, in combination with wetting-agents, have influenced the development of dry-patch.

*When:* 10:00am–NOON, Wednesday 20<sup>th</sup> February 2013.

*Where:* UWA Research Station, 1 Underwood Avenue (entrance opposite Grovedale Rd), Shenton Park.

*RSVP:* Helpful, but not necessary.

*Contact:* Louise Barton, 6488 2543 or [louise.barton@uwa.edu.au](mailto:louise.barton@uwa.edu.au)

A brief presentation will commence at 10:15am sharp. Please remember to wear sturdy footwear, as the site is very sandy.
